

Priya Sharma

Data Science & Analytics Student

Email: priya.sharma.mock@email.com | Phone: +91-98765-43210 | GitHub: github.com/priyasharma-mockdata

TECHNICAL SKILLS

Languages: Python, R, SQL, MATLAB

Data Science & ML: Pandas, NumPy, Scikit-Learn, TensorFlow, Keras, NLTK

Visualization & Analytics: Tableau, PowerBI, Matplotlib, Seaborn, Excel

KEY PROJECTS

Predictive Housing Market Model — *Python, Scikit-Learn, Pandas*

- Designed a multi-variable linear regression model forecasting regional real estate pricing shifts based on macroeconomic indexes.
- Applied 5-fold cross-validation and feature scaling strategies to eliminate predictive variance errors by 12%.

Social Sentiments Analyzer — *Python, Natural Language Toolkit (NLTK)*

- Developed a text processing engine scoring real-time streaming feedback metrics from public data pipelines.
- Categorized intent polarities using Naive Bayes classifiers achieving verified testing validation marks of 89% precision.

EXPERIENCE

Insight Analytics Corp — Data Analyst Intern (Autumn 2025)

- Executed Python script automation to clean, process, and structuralize over 50,000 messy customer activity logs daily.
- Created interactive corporate Tableau dashboards monitoring customer retention funnels, identifying a 4% attrition bottleneck.

EDUCATION

B.Tech in Information Technology — Tech Institute of Technology (Expected Graduation: June 2027) | GPA: 8.9/10.0
